[Capacity building and the environment - UNEP - Geneva](#)

capacity building for the environment became a major focus for international assistance and cooperation. This area encompasses a range of activities including EIA training, which cannot be seen in isolation from other initiatives to strengthen environmental stewardship or their overall relation to the economic and social fabric. Capacity building in developing countries was a major theme of [Capacity building - Wikipedia](#)

Capacity building (or capacity development) is the process by which individuals and organizations obtain, improve, and retain the skills, knowledge, tools, equipment and other resources needed to do their jobs competently or to a greater capacity (larger scale, larger audience, larger impact, etc).
