Craniofacial Trauma. Injuries to the face and skull account for over 20 percent of emergency visits to hospitals and urgent cares. Simple injuries may be able to heal on their own, but when a more significant trauma occurs, often a specialist in craniofacial reconstruction will need to immediately intervene.

[Craniofacial Trauma | Springer for Research & Development](#)

This book, now in a revised and updated second edition, offers detailed guidance on the diagnosis, surgical planning, and interdisciplinary treatment of craniofacial trauma.

[Head Injury - Wikipedia](#)

A head injury is any injury that results in trauma to the skull or brain. The terms traumatic brain injury and head injury are often used interchangeably in the medical literature. [1] Because head injuries cover such a broad scope of injuries, there are many causes including accidents, falls, physical assault, or traffic accidents that can cause head injuries.

[Craniofacial trauma in the Prehispanic Canary Islands ...](#)

Craniofacial trauma in the Prehispanic Canary Islands The possible causes and social implications of the trauma found are considered, with reference to archaeological and historical data. Variables include the island, period and ecology; the sex and age of the individuals; the distribution of lesions across the skull (by side and by individual bone) and ante mortem tooth loss.

[Craniofacial Trauma - Nick Jones - Oxford University](#)

Press

Over the past decade there have been major advances in the management of patients with craniofacial trauma.

These have been fuelled by new concepts and techniques arising from the elective repair of congenital craniofacial deformities, and also by the increase in survival after trauma, due to improved resuscitation techniques.

Cranio-Maxillofacial Trauma - Craniofacial Surgery

Charles Davis is a reconstructive, cranio-maxillofacial and cranio-facial surgeon. He specialises in treating craniofacial malformations, paediatric cranio-facial problems and trauma, complex ear and facial deformities and other cranio facial traumas as well as undertaking cosmetic and plastic surgery for private patients.
