Cytopathology of Bone and Soft Tissue Tumors

Cytopathology of Bone and Soft Tissue Tumors By Lester J. Lay edd, 266 pp, with illus, New York, NY, Oxford University Press, 2002. We are victims of our training and experience. And to this, we plead guilty. In this world, the senior of us have been taught that cytology has little value in the diagnosis of mus-culoskeletal tumors and tumorlike conditions, while the junior member harbors no Gardner's syndrome associated fibromas - Michal - 2004 ...

Two excised lesions in Case 1 were histologically identical

to nuchal type fibroma (NTF) and one lesion in this patient was an epidermal cyst. Case 2 had a lesion located in the soft tissues of the shoulder, which was morphologically similar to NTF and, in addition, contained mildly atypical and multinucleated fibroblastic cells. The oral lesion in Case 3 looked like a fibroma and was
