[Ethology - Wikipedia](#)

Ethology is the scientific and objective study of animal behaviour, usually with a focus on behaviour under natural conditions, and viewing behaviour as an evolutionarily adaptive trait.

[Mammalogist | About Bioscience](#)

Obviously, becoming a mammalogist is not the only way

to study mammals. In fact, many scientists who study mammals would not consider themselves mammalogists per se, but rather specialists in such fields as physiology or ethology who happen to use mammals as the subjects in their research. A number of employment opportunities exist for trained mammalogists and individuals interested in working
