Fuzzy dynamical systems inverse and direct spectra ...

The present paper is concerned with the study of fuzzy dynamical systems. The notions of equivalence of F-dynamical systems, a factor of an F-dynamical system and corresponding homomorphism, inverse and direct spectra are introduced and a few propositions are proved.

What is the difference between randomness and fuzziness ...

Fuzzy logic is a badly (but cutely) named mathematical technique that is actually very rigid. It is quite unlike randomness. The fuzzy part refers to using ranges and degree of membership in a set rather than single values.
