Critical Limb Ischemia - [PDF Document]

In other presentations such as critical limb ischemia, manifesting with rest pain or tissue loss, the above-mentioned past history is extremely important, as these patients will likely have multilevel arterial disease and during the history a treatment plan can be formulated. Rest pain occurs in most distal place aspect of the extremity, the foot, dorsum of the foot, and toes. Patients will wenz ID - Doeke boersma by wenz ID - Issuu
