Quantifying consciousness - The Lancet Neurology

Several investigators disagree that scoring eye opening is sufficiently indicative of activity in brainstem arousal systems and have proposed coma scales that include brainstem reflexes, such as the comprehensive level of consciousness scale, the clinical neurologic assessment tool, the Bouzarth coma scale, and the Maryland coma

scale.

Quantifying Consciousness | Page 1 | Naked Science Forum

Someone asked me: If consciousness is not generated by the physical brain, but instead exists somewhere else and somehow is linked to the brain, shouldn't it
