What is a stepped care approach? Stepped Care is a system of delivering and monitoring mental health treatment so that the most effective, yet least resource intensive treatment, is delivered first, only stepping up to intensive / specialist services as required and depending on the level of patient distress or need.
[Stepped Care | Here to Help](#)
The concept of collaborative or shared care has evolved to include the idea of stepped care, i.e., that the level of intensity of care should be matched to the complexity of the condition. Depending on complexity, and on other factors, the most appropriate (and cost-effective) level of care may range from brief, non-intensive interventions that can be initiated by the family physician, to
